

DECOCLEAN CLEANER & DEGREASER

“The Innovating Company”

PRODUCT DESCRIPTION:

DECOCLEAN is an environmentally friendly industrial strength floor cleaner, degreaser and stripper. It is ideal for cleaning and preparing cementitious surfaces for acid staining, decorative overlay and self-leveling installation. It is also used on concrete, stucco, terrazzo, wood, painted surfaces, plastic and metal surfaces to remove oil spills, grease, adhesives, gum, tar, grime, dirt, scuff marks and stains. It will not damage or etch the surface it's used on, has a pleasant scent, it is biodegradable and easily rinsed off with water.

USES:

DECOCLEAN degreases, removes food soils, floor waxes, soot, ink, tar, soap films, coal tar adhesives, latex base adhesives, sludge, dirt, grime, rubber marks, some paints, laitance and other organic and inorganic soils.

- Effectively cleans and prepares floors for acid stain, overlays and sealer application.
- Strong and versatile may be used for maintenance of warehouses, industrial plants, parking garages, airport runways, loading docks and shipping and receiving areas.
- Cleaning and degreasing tools, heavy equipment, trucks and motors.
- Cleaning dumpsters, garbage areas and rest rooms in industrial plants, hospitals, hotels, restaurants and schools.
- Deodorizing and cleaning pet areas.
- Formulated for tough cleaning jobs may be used on shop tools, truck chassis and as engine degreaser. Will easily break up grease without harming any metals.
- May be used on interiors and exteriors.

FEATURES:

- It's made with a biodegradable, naturally occurring solvent with an FDA-GRAS Rating (generally recognized as safe"). Its natural citrus-based enzyme solvents do not contain any harmful acids or petrochemicals.
- Safe to use in many different locations and sensitive areas such as: Restaurants, schools, hospitals, hotels, stadiums, malls, and food processing plants.
- Does not etch or damage concrete surfaces or metal.
- Removes tough and stubborn materials and stains.
- Made with natural ingredients.
- Biodegradable.
- Concentrated.
- Pleasant smell.
- Non-Acid.
- Non-Caustic.
- Non-Corrosive.
- Non-Flammable.
- Non-Hazardous.
- Non-abrasive.
- Non-Carcinogenic.

TECHNICAL DATA AND SPECIFICATIONS:

Undiluted Coverage Rate.....250 ft² per gallon
VOC.....Compliant
Color.....Milky-White
Odor:.....Citrus-Orange
Water Miscible..... Yes
Biodegradable..... Yes
Film Forming..... No
Shelf Life.....Over 2 years
Hazardous Solvents..... No

PACKAGING:

1 Gallon (3.8 L) jugs
5 Gallon (18.9 L) pails
55 Gallon (208 L) drums

APPLICATION:

DECOCLEAN is concentrated and may be used straight or reduced with up to ten parts of water or more depending on floor condition and dirt or grime level. Use straight for heavily soiled areas and for stripping waxes, for normal cleaning start at a medium dilution then reduce or add water content as needed. Apply solution by brush mop, sponge, or sprayer and allow soaking in into the contaminants and surface for 2 to 3 minutes, let soak in for 10 to 15 minutes when stripping wax or when cleaning heavily soiled areas, then scrub with a brush or scrubbing machine with a black or medium abrasiveness pad. After surface is clean, rinse off with clean water and remove the residue with a wet-vac. Multiple applications may be needed for heavy-duty cleaning or high dirt build up.

ACID STAINING OR CEMENT OVERLAYS:

To prepare floors for acid staining or overlays we recommend using a floor scrubber with a pad, this will provide a deeper more thorough cleaning, that will open the concrete pores and will allow for deeper penetration of the stain, and a better bonding for the sealer.

DECOCLEAN is safe to use on metal surfaces, concrete, glass, porcelain, and most washable surfaces, test first for compatibility of product with surface to be cleaned.

CLEANING:

Clean and rinse equipment with clean water immediately after application.

LIMITATIONS:

- Not for use on asphalt, resilient tile, rubber, or other applications glued with adhesives, DecoClean will soften glues.
- Do not allow material to freeze
- Wear protective gloves and goggles during application.
- Do not use near fire, open flames, sparks or ignition sources.

STORAGE:

DecoClean should be stored between 32° and 100° F (0° to 38°C) in tightly sealed and original factory containers. Store in a cool area away from excessive heat, spark and open flames. Prevent from freezing.

CAUTION: May cause eye and skin irritation, and maybe harmful if swallowed. Avoid eye contact; in case of contact flush eyes with water for 15 minutes. If swallowed, do not induce vomiting, drink large amounts of water or milk and seek immediate medical attention. **KEEP AWAY FROM CHILDREN**

WARRANTY:

DECOSUP DECOCLEAN is warranted to be of uniform quality within manufacturers tolerances. Since no control is exercised over its use, no warranty, expressed or implied, is made as to the effects of such use. Seller and manufacturer's obligation under this warranty shall be limited to refunding the purchase price of that portion of the material proven to be defective.
